

**Name:** Rosalyn Davis, Ph.D.

**Institutional affiliation:** Indiana University Kokomo

**Area of specialization:** Clinical

**Brief (1 paragraph) summary of professional interests:** Currently my focus is on providing good training at the undergraduate and graduate level. I want students to have a well-rounded and fully formed experience of the field and their opportunities. My research is focused on diversity issues and relationships in minority communities. I am currently leading a research team studying Black college students experiences and hope to have something published next year. Additionally, I have very committed to diversity work on all levels and in multiple communities speaking to church groups, community groups, doctoral trainees and campus communities when requested. I also have developed diversity courses on the undergraduate and graduate levels for my department and a psychology focused brief study abroad program. Finally, I am passionate about mentoring minoritized students but in particular women of color who often do not see themselves represented in the spaces I am able to inhabit. It is important to me to provide to them the same encouragement and support that I received from my mentors throughout my academic career and professional life.

**Representative publications (no more than five):**

- Clark, K., Davis, R., Holcomb, K. and Morgan, G. (in press) Undergraduate research across the psychology curriculum. *Journal of the Scholarship of Teaching and Learning*.
- Avant, N. & Davis, R. D. (2018). Navigating and supporting marginalized identities in dominant pharmacy spaces. *Innovations in Pharmacy*, 9(4).
