

Name: Rosalyn Davis, PhD

Institutional affiliation: Indiana University Kokomo

Area of specialization: Clinical/Counseling

Brief (1 paragraph) summary of professional interests: My primary professional interests are in training of undergraduate and graduate students within the counseling spectrum. This means making sure that I stay abreast of changes in the discipline and adjust curriculum as needed to make sure they are being provided a well rounded education and can achieve their goals. I conduct and disseminate research with students and colleagues when possible within counseling, diversity and training. This includes serving as an editorial board member and mentor for *The Counseling Psychologist*. Additionally, I am focused on mentoring and diversity, equity and inclusion very broadly. Mentoring relationships allows for me to make stronger connections with students, colleagues and those that trained me and create opportunities for all of us to expand our networks and grow professionally. Finally, I am committed to making sure that we explore DEIJ from a number of perspectives so that we can share knowledge, overcome misunderstandings, and create inclusive spaces for each of us. Especially in these moments of hyperpolarization being able to have open and robust conversations keeps us connected to each other and able to find joint solutions to common problems.

Representative publications (no more than five):

- Davis, R. (Ed.) in press. *Surviving Burnout in Academia: Narratives on Resilience and Resistance*. Lexington Books.
- Davis, R. and Bowman, S. (Eds.). (2022). *Overworked and undervalued: Black women and success in America*. Lexington Books.
